

FCC,

I am very concerned about the media bias in the news the issue currently in the media regarding the Sinclare group is abhorrant. I can understand releasing the movie to the theatres but playing a movie that underscores the division that we have coming up to the Presidential Elections is just plain wrong. They should have their licenses removed for using their essentially free access to the public airways in a way that is so partison. As an independent voter I am very offended by their actions and expect the FCC to respond in kind. You have spent so much time an effort on JANet Jackson's 1 second breast exposure but have kept virtually silent on this issue. It appear the FCC might also be in the pockets of the Right wing neo-conservatives too. You need to represen all americans.

Regards,  
Ryan Seeliger
